Career Objective

A highly motivated and adaptable Computer Science student with a strong foundation in programming and web technologies. Eager to leverage analytical skills and frontend development expertise to contribute to innovative projects. Seeking opportunities to grow as a Data Analyst and Frontend Developer, passionate about creating impactful and user-centric solutions.

About Me

A dedicated B.Sc. in Computer Science and Engineering student with a passion for technology and its application. Possessing a solid grasp of core programming concepts and a keen interest in transforming data into insights and crafting intuitive user interfaces.

Education

B.Sc. in Computer Science & Engineering

Faridpur Engineering College | CGPA: 3.37 (Current)
Expected Graduation: 2026

- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies, Discrete Mathematics.
- Actively engaged in problem-solving and practical application of theoretical knowledge.

Technical Skills

- Python
- JavaScript
- HTML, CSS
- SQL (MySQL)
- Data Analysis
- Problem Solving

Languages

- Bangla (Native)
- English (Fluent)
- Hindi (Conversational)

Hobbies

- Gaming: Enhancing strategic thinking and problem-solving skills through immersive gameplay.
- Sleeping: Prioritizing adequate rest to maintain optimal mental clarity and productivity.
- Reading Tech Blogs: Staying current with emerging technologies and industry best practices.

Experience

Practical Application & Learning

Currently focusing on academic excellence and hands-on project development to build a robust portfolio in Computer Science and Engineering.

- Actively engaged in self-learning initiatives to master new technologies and programming paradigms.
- Applied theoretical knowledge through personal projects, simulating real-world development challenges.

Projects

Tornado (Python-based Virtual Assistant)

Developed a voice-activated virtual assistant, similar to Alexa, designed to make computers interactive and intelligent.

ImageHunt (Web Application)

Created a lightweight web application enabling users to search and explore stunning images from Unsplash using keywords.

Certifications

Academic Distinction: Achieved GPA 5.00 in SSC (Secondary School Certificate) and HSC (Higher Secondary Certificate) examinations.

Current Academic Performance: CGPA 3.37 in B.Sc. in Computer Science & Engineering.

Achievements

- Successfully developed and deployed two significant personal projects, demonstrating strong programming and problem-solving capabilities.
- Consistently maintained high academic performance, reflected in perfect GPA scores in secondary and higher secondary education.
